2. Product Range - Resin Bounded Surfaces

FloorTech resin bounded surfaces combine natural stone aggregates with advanced resin binder systems to create durable, permeable, and aesthetically pleasing surfaces. These systems are ideal for both decorative and high-performance applications.

Applications:

- Commercial and residential driveways
- Public walkways and pedestrian areas
- Corniche and waterfront promenades
- Shopping center courtyards
- Parking areas and access roads
- Landscape pathways and garden areas

Key Benefits:

- Permeable surface allows natural water drainage
- UV-stable resin resists fading and yellowing
- Slip-resistant surface for improved safety
- Low maintenance requirements
- Wide range of aggregate colors and textures
- Durable performance in extreme Saudi climate
